Register of Regulatory Divergence and Alignment in Post-EU Exit Environmental Law

This register on environmental divergence has been completed as part of work commissioned by the OEP. In this version of the data is complete as of 31/03/2025

This column provides an indicative acts that previously applied in all parts of the UK and therefore minimised the potential for intra-UK divergence.

This column provides information about the interaction between the policy area for potential alignment and/or divergence in environmental law between the policy area for potential alignment and/or divergence in environmental law between the policy area for potential alignment and/or divergence in environmental law between the policy area for potential alignment and/or divergence in environmental law between the policy area for potential alignment and/or divergence in environmental law between the policy area for potential alignment and/or divergence in environmental policy area for potential alignment and/or divergence in environmental law between the policy area for potential alignment and/or divergence in environmental policy area for potential alignment and/or divergence in environmental policy area for potential alignment and/or divergence in environmental policy area for potential alignment and/or divergence in environmental policy area for potential alignment and/or divergence in environmental policy area for potential alignment and/or divergence in environmental policy area for potential alignment and/or divergence in environmental policy area for potential alignment and/or divergence in environmental policy area for potential alignment and/or divergence in environmental policy area for potential alignment and/or divergence in environmental policy area for potential alignment and/or divergence in environmental policy area for potential alignment and/or divergence in environmental policy area for potential alignment and/or divergence in environmental policy area for potential alignment and/or divergence in the potential policy area for potential alignment and/or divergence in environmental policy area for potential alignment and/or divergence in the potential policy area for potential policy area for potential policy area for potential policy area for poten

(low, medium, high) is denoted by darker referenced with other parts of this Divergence Register.
